SUMMARY

BSc (Hons) in Information Technology – Software Engineering undergraduate (3rd year, 1st semester) **actively seeking a Fullstack Development internship.** Proficient in both frontend and backend technologies, with hands-on experience building dynamic, responsive web applications. Skilled in JavaScript, React, Node.js, Express, MongoDB, and UI frameworks such as Tailwind CSS and Bootstrap. Experienced in developing MERN stack projects with a strong focus on performance, usability, and clean code practices. Passionate about real-world problem solving, continuous improvement, and working in collaborative development environments.

EDUCATION

Bachelor of Science Honors in Information Technology – Undergraduate

Jan 2023 – Present

Sri Lanka Institute of Information Technology
Specialized in Software Engineering.

G.C.E. Advanced Level – Technology Stream

Aug 2021

Index Number – 6082572
Shariputre College, Matara
Engineering Technology- B
Science for Technology- C
ICT- S

PROJECTS

- **DineSwift – Microservices-based educational platform using Node.js /Express.js (backend) and React with Tailwind CSS (frontend); deployed with Docker and Kubernetes.**

Related Skills: Microservices Architecture, REST APIs, React.js, Tailwind CSS, Node.js, Express.js, Docker, Kubernetes, Container Orchestration, DevOps

- **WorldFacts – Responsive web app to explore country data with search, filters, and interactive maps. Includes demo-mode login, dark/light themes, and personalization features. Built with React and REST Countries API.**

Related Skills: React 18, Tailwind CSS, React Router, REST API, React-Leaflet, LocalStorage, Vite

- **ToDo App** – A mobile task management app built using Android Studio with Kotlin and Java. Supports creating, updating, deleting, and completing tasks with a simple and intuitive user interface.

Related Skills: Kotlin, Java, Android Studio, XML Layouts, SQLite/Room, Android SDK, MVVM Architecture

- **FocusMinder** – A mobile productivity app for managing tasks and reminders. Built with Android Studio using Kotlin and Java, featuring an intuitive UI for organizing and tracking to-dos efficiently.

Related Skills: Kotlin, Java, Android Studio, Android SDK, XML Layouts, Room/SQLite (if used), MVVM Architecture, Task Scheduling

ADDITIONAL INFORMATION

- **Soft Skills:**

Communication Skills, Team Collaboration, Problem Solving, Time Management, Technical Documentation, Fast Learner

- **Programming & Scripting Languages:**

C, C++, Java, Kotlin, Python, JavaScript

- **Web Technologies & Frameworks:**

HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, REST API

- **Mobile & Desktop Development:**

Android Development (Java/Kotlin), Android Studio, XML Layouts

- **Database & Storage:**

MongoDB, MySQL, SQLite, Room DB, LocalStorage

- **Tools & Platforms:**

Git, GitHub, Vercel, Postman, VS Code, Figma, Docker (basics)

- **Concepts & Methodologies:**

Object-Oriented Programming (OOP), MVC & MVVM Architectures, Responsive Design, UI/UX Design, Testing (Jest, React Testing Library)

CERTIFICATIONS

- **Python for Beginners – University of Moratuwa**

Python fundamentals, syntax, control structures, basic problem solving

- **Web Design for Beginners – University of Moratuwa**

HTML, CSS, responsive layout design, web design principles

- **Introduction to MERN Stack – Simplilearn SkillUp**

Fullstack web development basics using MongoDB, Express.js, React.js, and Node.js

- **Front-End Web Development – University of Moratuwa**

Front-end development fundamentals, Angular framework, jQuery, AJAX, Single Page Applications (SPA)
